Portfolio

WEB DESIGNER

Portfolio Website

- **Work section design**
- **Blog section design**
- **Contact us form design**
- **Footer section Design**
- **HTML, CSS & JavaScript Code**

INTRODUCTION

A portfolio website is a website that showcases a person's or company's work, projects skills, expertise, and accomplishments to potential clients or employers. A portfolio website is often used by freelancers, artists, designers, photographers, and other creative professionals as a way to attract new clients and showcase their work to the world.

This is my personal portfolio website that is created using HTML, CSS, and JavaScript to showcase my skills and experience in web development.
 I have implemented responsive design principles, ensuring that the website looks great on any device, including desktops, tablets, and mobile phones.

Header menu design

Let's begin to create a navigation menu to my project. It will assist visitors in finding the pertienent information they need.

To maintain the navbar at the top of the page , I use header tag and use flex property in the css. The name of the individual is kept as a FRONTEND in the navbar's logo class.

Hero header design

I'm adding a portfolio image that display my image with my profession and some text to the right that display my introduction and social icons with my C.V download button.

A portfolio image is a web design term which is refers to a high quality image that displays the company or individual's main goals, a representative image, photo, or other eye-catching elements. It helps attract users to your site.

About me section design

The About section contains important information about me and my background.Visitors to my portfolio site can get to know my throught the information I provide in this section.

I'm adding an image to the right that display me and on the right side I'm add my quick introduction in this section

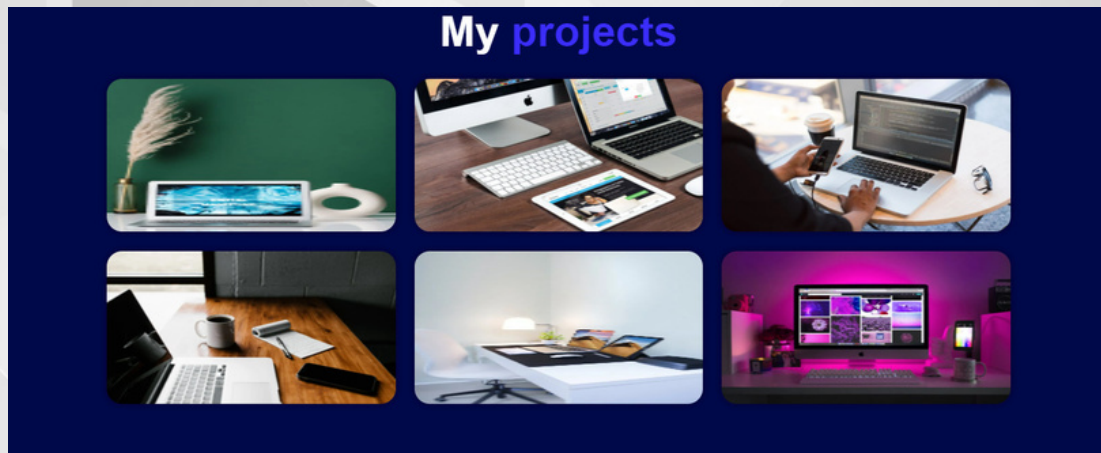

Skills section design

This section helps convert website visitors into potential clients. This is where i explain what specific skills i have. My skills section has 2 rows and 3 columns each.

For large screens with a width greater than or equal to 991px, three cards are displayed in a row. For screens is less than 991 only a single card is displayed in a row.
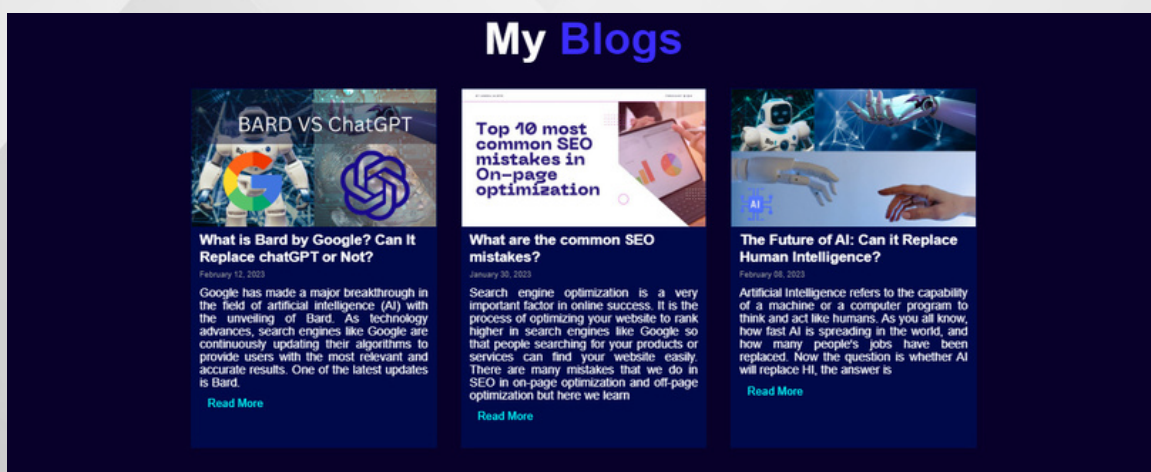

Projects section design

This section includes my best projects. People can see what i'm capable of doing, and showcasing strong past work will definitely attract more potential clients or recruiters. I use .projects-box & .projects-layer to display the portfolio projects. There will be 2 rows and each row will have 3 columns of cards.
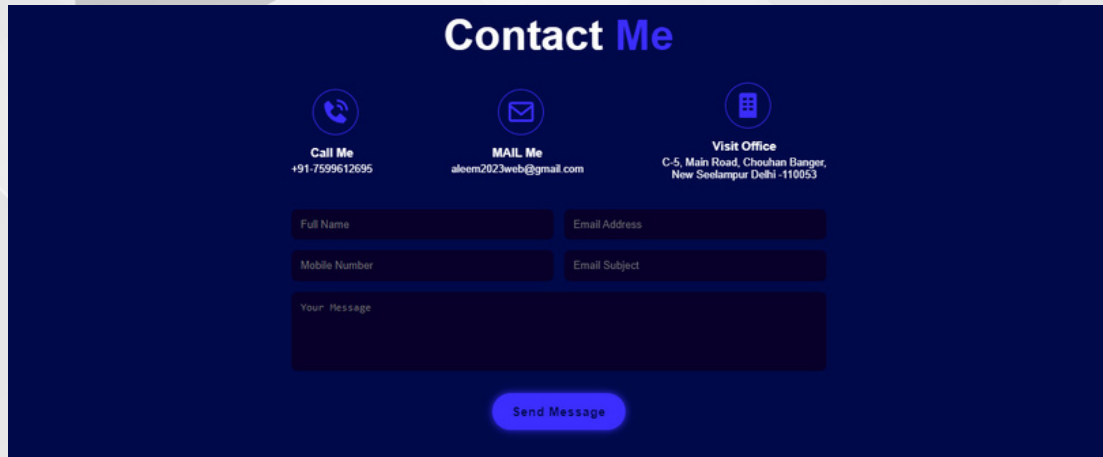

Blog section design

This section helps convert website visitors into my personal blogging website. This is where i explain what blog post i wrote in my blogging site. Blog section has 1 rows and 3 columns each.
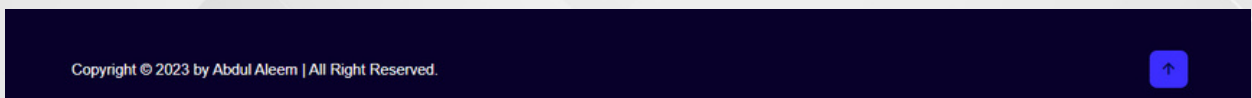

Contact me form design

I include my contact information in this section like Phone no, Email ID, Office Address, so that visitors can contact me if they want to hire me

In my contact section, I use Flex to the alignment of contact icons and contact form.

Footer section design

Now come to the last section of this portfolio website, which is the footer section.

In the Footer, I add Copyright notice in the left side and icon that is use for going to the top of the website.

HTML CSS & JS code

HTML CODE

```
<!DOCTYPE html>
<html>
<head>

 padding: 1rem 3%;
 background: var(--bg-color);
 border-top: .1rem solid rgba(0, 0, 0, .2);
 box-shadow: 0 .5rem 1rem rgba(0, 0, 0, .2);
 display: none;
}
.active{
 display: block;
}
.navbar a{
 display: block;
 font-size: 2rem;
 margin: 3rem 0;
}

/*HOME PAGE*/

.home{
 flex-direction: column;
}
.home-content{
 margin-left: 0;
}
.home img{
 height: 28rem;
 width: 50vw;
 margin:0 3rem;
}
.home-content h1{
 font-size: 3.4rem;
 line-height: 1;
}
.home-content h3{
 font-size: 2.3rem;
}
```

```css
.home-content p{
 line-height: 1.2;
 margin-top: -1rem;
}
.social-media a{
 width: 4rem;
 height: 4rem;
 margin: 1rem 0 3rem 2rem;
}
.btn{
 padding: 1rem 2.5rem;
 margin-top: -1rem;
}

/*ABOUT PAGE*/

.about{
 flex-direction: column;
}
.about-content h3{
 font-size: 3.2rem;
 font-weight: 700;
}
.about-content p{
 margin: 2rem 0 0;
}
.about img{
 width: 80vw;
 margin-bottom: 2rem;
}

/*SERVICES PAGE*/

.contact_icon{
 flex-direction: column;
 }
.contact_icon_box{
 margin: 3rem;
 font-size: 5rem;
}
.contact form .input-box{
 flex-direction: column;
}
.contact form .input-box input{
 width: 100%;
}
 }
```

HTML CSS & JS code

JavaScript Code

```javascript
// MENU ICON TOGGLE

var menuIcon=document.querySelector('#menu-icon');
var navbar=document.querySelector('.navbar');

menuIcon.onclick= () => {
 menuIcon.classList.toggle('bx-x');
 navbar.classList.toggle('active');
}
menuIcon.classList.remove('bx-x');
navbar.classList.remove('active');

// Navbar hide when nav_a clicked

var nav_a=document.querySelector('.navbar').querySelectorAll('a');
nav_a.forEach(element => {
 element.addEventListener("click",function(){
  nav_a.forEach(nav=>nav.classList.remove("active"))
  this.classList.add("active");
  menuIcon.classList.remove('bx-x');
  navbar.classList.remove('active');
 })
});

 // ScrollReveal Code

ScrollReveal({
 reset: true,
 distance:'80px',
 duration:2000,
 delay:200
});

ScrollReveal().reveal('.home-content, .heading', { origin: 'top' });

ScrollReveal().reveal('.home-img, .services-content, .projects-box, .blog-content, .contact form',
{ origin: 'bottom' });

ScrollReveal().reveal('.home-content h1, .about-img, .social-media, .btn, .contact_icon', { origin:
'right' });

ScrollReveal().reveal('.home-content p,  .about-content', { origin: 'left' });
```
